NOTABLE PROJECTS

- [Iswavle](#) - Pronounced "is-tsav-leh" (Georgian word for "learn"). Think of it as a Georgian MDN alternative. Build with Angular and custom markdown content prerendering.
- [EverREST](#) - A full-fledged REST API for learning development. Built with NestJS.

- [Shop Loyalty](#) - Project built for my computer science degree, based on QR technology.
- [NgxCubeLoader](#) - A simple loader component library for Angular.
